

SEYI AMERICA—SD2 DOUBLE-CRANK SERVO DRIVE PRESS

- User-friendly Interface**
 10.4 inch colorful touch panel
 Simple yet highly functional
 Operation panel with Handy Pulser
- Advanced Press Structure**
 High Strength RIB Structure
 Direct-drive motor integral driving shaft (Developed with Japanese technology)
 Direct-drive motor with fully programmable motion setting (Developed with Japanese technology)
- Superior Forming Capability**
 Large forming energy
 Forming load analysis(Optional)
 Product quality judgments (Optional)
- Safety Design**
 Motor equipped with safety brake
 Load monitor (Developed with Japanese manufacturer Standard attachment)
 Electronic overload protector (Patent in application)
 Die protective function
 Segmental load limitation setup
- Available Sizes**
 176 to 440 tons
- Standard Attachments**
 Servo System (Servo Motor, Amplifier, Controller) Safety Brake System
 Electric Overload Protection
 Tonnage Monitor
 Free Motion Software
 Die Information Memory (200 Set)
 10.4 Inch Colorful Touch Panel
 Die Height Adjustment
 Slide Position Adjustment (Handy Pulser)
 Portable Operation Stand
 Mis-feed Socket 4 Set (2A, 2B)
 Pneumatic ejector 1 Set
 Air Outlet 1 Set
 Photoelectric Safety Device
 Oil Lubrication System
 Total/Preset/Batch/Maintenance Counter
 Tool Box
 Anti Vibration Mounts
 Safety Bar
 Tool Lamp
- Optional Attachments:**
 Pneumatic Die Cushion
 Hydraulic Die Cushion
 Quick Die Change
 System Lamp Socket (1A)
 Knock out Device
